

AMDEX 40 Port Breakout Patch Panel for use with the NEC UNIVERGE System
Part number: DTP40/40

Our new AMDEX 40/40 Breakout Panel has been specifically designed for use with the NEC Univerge PABX System. The AMDEX panel has 10 x RJ45 inputs for connection to the Univerge System, then linked via a printed circuit board to the 40 x voice outlets for voice distribution. Complete your installation by installing with the AMDEX DTP50 1RU 50 port Cat.3 Voice Patch Panel for your premises distribution (see diagram).

- 1RU Patch Panel
- 10 x RJ45 Imports from NEC System
- 40 x RJ45 Voice Output
- Uses Standard C5e/6 Patch leads
- Plug & Play
- Reduces Installation Time
- Reduces Installation Cost
